Works lasting longer than 3 months

Signs to be placed in advance of works.

Due to the size of this sign, it is only expected that its use will only be appropriate only in certain circumstances, ie. where the work is static in a specific road or area.

Where such signs are to be used, it will be appropriate to erect these signs on fixed posts.

Where the nature of the works to be undertaken precludes the use of such signs then the sign shown previously is to be used.
