PROPOSED LIFT SECTION B
SCALE 1:50

Proposed new freestanding independent service lift and housing. Shaft and car painted black. New support structure steel beams fixed (bolted) between existing shaft base brick walls at lower ground floor level to support freestanding shaft so as not to damage existing lift and running gear. All existing lift running gear, rails, mesh cage to be retained in place. Existing car and lifting gear to be retained in place in basement. Existing running rails used only for clamp support positions to give lateral stability to be shaft. All clamps to be future removable. Existing concertina doors to be carefully removed and placed in storage. Existing lift counterweight to be carefully removed and placed in storage. See indicative arrangement drawing. All details to be agreed
