

○ NOTES This drawing is copylight of Condy and Lofthouse Ltd. and may not be reproduced in any way without their specific permission.

All dimensions are to be checked on site. Do not scale from this drawing, work to figured dimensions only. Any queries please contact the architects. MATERIALS PROHIBITED

Materials prohibited from use, except where used in accordance with 'Good Practice in the Selection of Construction Materials (March 2011)' or unless required by the Contract

a) high alumina cement in the structural elements.
 b) wood wood slabs in permanent formwork to concrete:
 c) calcium chloride admixtures for use in reinforced concrete:
 d) asbestos or asbestos-containing products, as defined in the 'Control of Asbestos at

Work Regulations, as amended 2006' or any other statutory modification or reenactment thereof:

e) any naturally occurring or man made mineral fibres (for example, rock-wool or slag wool) with a thickness of 3 microns or less and a length of 200 microns or less, unless they are appropriately sealed to prevent migration of fibres:

1) aggregates for use in reinforced concrete which do not comply with:

18 EN 12620 2002: properties of aggregates used in concrete.

18 EN 13139 2002: Properties of aggregates used in mortar.

18 EN 1305 (Parts 1 & 2): properties of lightweight aggregates.

Cluidance on avoiding aliali-slicar eraction and limitations on alkall content in

BRE Digest 330 (2004) & 'Concrete Society Technical Report 30 (1999);

g) lead, lead paint or any other materials containing lead which may be ingested, inhaled or absorbed, except where copper alloy fittings also containing lead are

Contract:

h) ure a formaldehyde foam or materials which may release formaldehyde in quantities which may be hazardous with reference to the limits set by the Health and Safety Executive:

calcium sticate bricks or ties:

vermicutile unless it is established as being fibre-free: calcium sticate bricks or ties:

k) any products containing cadmium referred to in Statutory Instrument SI 2006/3311

Controls on dangerous substances and preparations Regulations 2006: Reference the state of the controls on the State Controls and support to the State Controls on dangerous substances and preparations Regulations 2006: Reference the state of the controls on the market in MSE IDEST81 Controls and support to the state of t

I) any new timber treated with pentachlorophenol;

 non galvanised mild steel structural fixings for building elements particularly susceptible to erosion:
 concrete used in circumstances where it is susceptible to alkali/slica reaction: p) solvent based paints except where water based paints are unsuitable for unavailable

any new materials not in accordance with statutory requirements, British Standards,
 Codes of Practice and good building practice current at the date of incorporation of the relevant materials into the Works or the specifications thereof;
