SCOPING RESPONSES

APPENDIX 18.4

SCOPING REPORT RESPONSES

Organisation	Comment	Response
Historic England	Reference to a series of assets: Liverpool WHS; Stanley Dock Conservation Area; Stanley Warehouse (II*), Bramley Moore Dock Retaining Walls (II) & Dock Wall (II); non-designated heritage assets	These designated heritage assets are all assessed as part of the ES, Heritage Statement (Appendix 18.1); ICOMOS Heritage Impact Assessment (Appendix 18.2) and the Planning Statement (CBRE)
	The assessment should be carried out in a Historic Impact Assessment that complies with the ICOMOS Guidance on Heritage Impact Assessments	Appendix 18.2 contains the full ICOMOS based Historic Impact Assessment (HIA) and has informed this assessment.
	The assessment of impact on setting should have regard for the Historic England Good Practice Advice Note: The Setting of Heritage Assets (GPA3)	This assessment as well as the Heritage Statement (Appendix 18.1) and ICOMOS HIA (Appendix 18.2) have had full regard for this Advice Note.
	Assessment of the partial demolition of listed buildings using the NPPF	The NPPF has been used throughout all of the assessments including the ES Chapter, Appendices 18.1 & 2 and the Planning Statement (CBRE)
Graeme Ives (LCC independent heritage consultant)	Recommended heritage based policy & guidance: The World Heritage Convention (1972); UNESCO Operational Guidelines (2013); ICOMOS Guidance on heritage Impact Assessments (2011); The Statement of OUV; The World Heritage Site Management Plan (2004); The World Heritage Site SPD Evidential Report (2009); Historic England Best Practice Advice Note 2 & 3.	This guidance and policy has been used to inform all of the assessments including the ES Chapter, Appendices 18.1 & 2 and the Planning Statement (CBRE).
	Advised reference to potential positive, neutral and adverse impacts	These have formed part of the assessments including the ES Chapter, Appendices 18.1 & 2 and the Planning Statement (CBRE).
	A table of designated and non-designated heritage assets (receptors) that will be scoped into the EIA	These form part of the ES Chapter
	Consideration of the component parts of OUV	This assessment is carried out in the Heritage Statement (Appendix

		18.1) and ICOMOS HIA (Appendix 18.2) to inform the ES Chapter.
	The assessment should comply with the ICOMOS Guidance on Heritage Impact Assessments	Appendix 18.2 contains the full ICOMOS based Historic Impact Assessment (HIA) and has informed this assessment.
	A methodology for identifying non-designated heritage assets	The Desk-Based Archaeology Survey and the Artefacts Survey and accompanying Heritage Asset Survey as well as the Heritage/ICOMOS Heritage Impact Assessments have been used to identify the non-designated heritage assets on and near to the site.
	A methodology for identifying the study area	The geographical area considered as part of the baseline conditions includes all designated heritage assets within and in the immediate vicinity of the application site, including the Stanley Dock Conservation Area and the World Heritage Site and its buffer zone. These represent already identified and established historically defined areas. The wider World Heritage Site is considered through the key views identified in the World Heritage Site SPD as well as those produced in the Townscape Visual Impact Assessment and Chapter 17 Townscape & Visual of this ES. These views were agreed with LCC and the Council's retained independent heritage adviser
