## 6. Discharge of Condition(s)

Please provide a full description and/or list of the materials/details that are being submitted for approval:

Condition 7: Prior to commencement of development, including any works of demolition, a detailed construction method statement shall be submitted to and approved in writing by the local planning authority. The statement shall include:

- (i) commencement and completion dates
- (ii) hours of operation for construction work
- (iii) measures to control noise and dust
- (iv) details of site compounds, storage of plant and materials
- (v) temporary highway works or closures
- (vi) access for construction traffic
- (vii) parking of vehicles of site operatives and visitors
- (viii) wheel washing facilities

(ix) a scheme for recycling/disposing of waste resulting from demolition and construction works.

The scheme shall be implemented in accordance with the approved statement and completed to the satisfaction of the local planning authority before the development is occupied/brought into use.

Condition 9: No part or phase of the development hereby permitted shall commence until;

a) An investigation and assessment methodology, including analysis suite and risk assessment methodologies has been completed and submitted to and approved by the LPA in writing, prior to any site investigations.

b) A site investigation and assessment has been carried out by competent persons to determine the status of contamination including chemical, radiochemical, flammable or toxic gas, asbestos, biological and physical hazards at the site and submitted to the LPA. The investigations and assessments shall be in accordance with current Government and Environment Agency recommendations and guidance and shall identify the nature and extent of any contaminants present, whether or not they originate on the site, their potential for migration and risks associated with them.

The assessment shall consider the potential risks to:

- i. human health,
- ii. controlled waters,
- iii. property (existing or proposed) including buildings, crops, livestock, pets, woodland and service lines and pipes,
- iv. adjoining land,
- v. ecological systems, and
- vi. Archaeological sites and ancient monuments.

c) A detailed remediation scheme (if required), has been submitted to and agreed in writing with the LPA. This scheme shall include an appraisal of remedial options, implementation timetable, works schedule, site management objectives, monitoring proposals and remediation validation methodology. The scheme once completed must ensure that the site will not qualify as contaminated land under Part IIA of the Environmental Protection Act 1990 in relation to its intended use.

Condition 10: After development commences and prior to occupation;

a) Following completion of the measures identified in the approved remediation scheme and prior to occupation of any part of the development, a verification report which shall confirm the adequacy of remediation must be prepared and submitted to and approved in writing by the LPA before this condition will be discharged. If a phased approach to the development is being proposed, then a validation/completion report for an agreed number of plots within each of the proposed phases shall be submitted to the Local Planning Authority and approved in writing before the condition relating to the phase in question shall be discharged.

b) If any potentially contaminated (unusual/suspect) material or flammable/toxic gas not previously identified is discovered, this must be reported in writing to the LPA and a further assessment and a revised remediation scheme will be required by the LPA. If no contamination is found then this should be detailed in the remediation verification report.

Condition 20: Prior to commencement of development, full details of the number, size, species, root treatment or container type and location of trees and shrubs to be planted and the treatment of all ground surfaces not built upon shall be submitted to and approved in writing by the local planning authority. The plan must be to a recognised scale and the symbols used and plant schedule provided must comply with BS EN ISO 11091:1999 Construction Drawings Landscape drawing practice.
