

Figure 10 is a sectional view of the proposed development. It shows a cross-section of a house with a gabled roof and a chimney. The house is situated on a sloping site. A 400mm retaining wall is shown, and the site boundary is indicated. The ground level is marked with a dashed line, and the top of the sandstone strata at 700mm depth is marked with a solid line. The horizontal distance from the house to the retaining wall is 16.7m. The vertical scale on the left ranges from 40.0 to 45.0. The horizontal scale at the bottom ranges from 10.0 to 30.0.

 Existing Ground Level  
 Top of Sandstone Strata  
 Proposed Ground Level

Proposed plots to be founded within sandstone strata as shown therefore no additional load onto adjacent retaining wall.
