

PLANTING NOTES

1. Plant handling at the nursery, and during transit up to delivery, shall be in accordance with 'Plant Handling' the booklet published by the Committee for Plant Supply and Establishment (CPSE). The contractor shall comply with clauses 3 & 4 of the above booklet (obtained from the Horticulture Trades Association) which refers to the receipt, unloading and temporary storage of plants.
2. Plants shall be first class examples of their species or variety, free from all pests and diseases with good fibrous root systems and materially undamaged. (Refer to relevant sections of BS3936 Parts 1-10 'Specification of Nursery Stock')
3. All planting is to be in general compliance with BS4428: 1989 'Code of Practice for general landscape operations (excluding hard surfaces)'.
4. The contractor must ascertain for himself the exact location of any underground services and maintenance points.
5. At the time of planting, areas will be covered by an approved depth of topsoil in accordance with the associated soiling plan PL1353.GA.200:
 - i) Topsoil to shrub areas to be min 450mm deep
 - Imported topsoil is to be approved via a sample delivery and soil testing results in accordance with the requirements of BS3882:1997 prior to installation
 - ii) Subsoil to shrub areas to be min 300mm deep
6. Water as necessary to ensure the establishment and continued thriving of planted matter.
7. Carry out all work when soil and weather conditions are suitable:
 - i) Do not plant during periods of frost or strong winds. Plant only during the following periods
 - Container grown plants: At any time if ground water and weather conditions are favourable.
 - Bulbs: In accordance with the suppliers recommendationsEnsure that adequate watering and weed control is available.
8. All shrub areas are to be mulched to a consolidated depth of 50mm using an approved Grade A Amenity Bark Mulch.
9. All climbing plants are to be supported using an approved tensile wire system attached to the adjacent walls. 4m minimum height x width to fill the space available. Suggested supplier: Inox Line by Jakob
10. These notes are to be read in conjunction with the associated softworks NBS specification. These notes do not replace the clauses contained within the NBS. The NBS is the priority specification document.
