

4.0 DESIGN PROPOSAL

4.7 PROPOSED LANDSCAPING

4.7.2 Public Space and Landscaping

At the Upper Ground Floor level the landscaping has been designed to provide a communal deck terrace for residents to use. Apartments overlooking the space will have a small private area to use and this will create a buffer zone to keep residents away from the apartment windows/doors.

The space will include planting, artificial grass and seating along with a BBQ area and tables and chairs.
