Introduction

The Environment Act 1995 has made site sensitivity a key issue, as the legislation pays as much attention to the pathways by which contamination could spread, and to the vulnerable targets of contamination, as it does the potential sources of contamination. For this reason, Landmark's Site Sensitivity maps and Datasheet(s) place great emphasis on statutory data provided by the Environment Agency/Natural Resources Wales and the Scottish Environment Protection Agency; it also incorporates data from Natural England (and the Scottish and Welsh equivalents) and Local Authorities; and highlights hydrogeological features required by environmental and geotechnical consultants. It does not include any information concerning past uses of land. The datasheet is produced by querying the Landmark database to a distance defined by the client from a site boundary provided by the client. In this datasheet the National Grid References (NGRs) are rounded to the nearest 10m in accordance with Landmark's agreements with a number of Data Suppliers.

APPENDIX C

UXO Risk Assessment

UNEXPLODED BOMB RISK MAP

SITE LOCATION

Map Centre: 339281,389345

LEGEND

- High:** Areas indicated as having a bombing density of 50 bombs per 1000acre or higher.
- Moderate:** Areas indicated as having a bombing density of 15 to 49 bombs per 1000acre.
- Low:** Areas indicated as having 15 bombs per 1000acre or less.

- military
- industry
- UXO find
- transport
- dock
- Luftwaffe targets
- utilities
- Bombing decoy
- other

How to use your Unexploded Bomb (UXB) risk map?

The map indicates the potential for Unexploded Bombs (UXB) to be present as a result of World War Two (WWII) bombing.

You can incorporate the map into your preliminary risk assessment* for potential Unexploded Ordnance (UXO) for a site. Using this map, you can make an informed decision as to whether more in-depth detailed risk assessment* is necessary.

What do I do if my site is in a moderate or high risk area?

Generally, we recommend that a detailed UXO desk study and risk assessment is undertaken for sites in a moderate or high UXB risk area.

Similarly, if your site is near to a designated Luftwaffe target or bombing decoy then additional detailed research is recommended.

More often than not, this further detailed research will conclude that the potential for a significant UXO hazard to be present on your site is actually low.

Never plan site work or undertake a risk assessment using these maps alone. More detail is required, particularly where there may be a source of UXO from other military operations which are not reflected on these maps.

If my site is in a low risk area, do I need to do anything?

If both the map and other research confirms that there is a low potential for UXO to be present on your site then, subject to your own comfort and risk tolerance, works can proceed with no special precautions.

A low risk really means that there is no greater probability of encountering UXO than anywhere else in the UK.

If you are unsure whether other sources of UXO may be present, you can ask for one of our **pre-desk study assessments (PDSA)**

If I have any questions, who do I contact?

tel: **+44 (0) 1993 886682**

email: **uxo@zetica.com**

web: **www.zeticauxo.com**

The information in this UXB risk map is derived from a number of sources and should be used in conjunction with the accompanying notes on our website: (<https://zeticauxo.com/downloads-and-resources/risk-maps/>)

Zetica cannot guarantee the accuracy or completeness of the information or data used and cannot accept any liability for any use of the maps. These maps can be used as part of a technical report or similar publication, subject to acknowledgment. The copyright remains with Zetica Ltd.

It is important to note that this map is not a UXO risk assessment and should not be reported as such when reproduced.

*Preliminary and detailed UXO risk assessments are advocated as good practice by industry guidance such as CIRIA C681 'Unexploded Ordnance (UXO), a guide for the construction industry'.

Subject: RE: Free PDSA Request - Wavertree
Date: Friday, 13 December 2019 at 16:45:20 Greenwich Mean Time
From: Joe Lingard
To: Peter Dickinson
CC: Greg Jones, Research
Attachments: image001.png, image002.jpg, image003.jpg, image004.png, image005.jpg, image006.png, image007.png, image009.jpg, image010.png, image011.png

Afternoon Peter

Please find the PDSA below as requested. Any further queries, don't hesitate to contact us.

	
Pre-Desk Study Assessment	
Site:	Childwall Road, Wavertree, Liverpool
Client:	Remada Ltd
Contact:	Peter Dickinson
Date:	13 th December 2019
Pre-WWI Military Activity on or Affecting the Site	None identified.
WWI Military Activity on or Affecting the Site	None identified.
WWI Strategic Targets (within 5km of Site)	The following strategic targets were located in the vicinity of the Site: <ul style="list-style-type: none"> ■ Transport infrastructure and public utilities. ■ Liverpool Docks. ■ Industries important to the war effort, including engineering and munitions works. ■ Military barracks. ■ Anti-Aircraft (AA) guns.
WWI Bombing	None identified on the Site.
Interwar Military Activity on or Affecting the Site	None identified.
WWII Military Activity on or Affecting the Site	None identified.
WWII Strategic Targets (within 5km of Site)	The following strategic targets were located in the vicinity of the Site: <ul style="list-style-type: none"> ■ Transport infrastructure and public utilities. ■ Liverpool Docks. ■ Industries important to the war effort, including engineering works. ■ Military barracks. ■ AA and anti-invasion defences.
WWII Bombing Decoys (within 5km of Site)	None.
WWII Bombing	During WWII the Site was located in the County Borough (CB) of Liverpool, which officially recorded 2,499No. High Explosive (HE) bombs with a bombing density of 91.5 bombs per 405 hectares (ha).

	<p>Between August 1940 and January 1942 the Luftwaffe carried out approximately 80No. raids on Merseyside. The heaviest bombing occurred during the 'May Blitz' in 1941 when 870 tonnes of HE bombs and over 112,000No. Incendiary Bombs (IBs) fell across the region.</p> <p>Readily available records have been found to indicate that several HE bombs fell in close proximity to the Site.</p>
Post-WWII Military Activity on or Affecting the Site	None identified.
Recommendation	It is recommended that a detailed desk study is commissioned to assess, and potentially zone, the Unexploded Ordnance (UXO) hazard level on the Site.
<p>This summary is based on a cursory review of readily available records. Caution is advised if you plan to action work based on this summary.</p> <p>It should be noted that where a potentially significant source of UXO hazard has been identified on the Site, the requirement for a detailed desk study and risk assessment has been confirmed and no further research will be undertaken at this stage. It is possible that further in-depth research as part of a detailed UXO desk study and risk assessment may identify other potential sources of UXO hazard on the Site.</p>	

Kind regards

Joe

Afternoon Peter

That's not a problem. We'll get a PDSA completed for you as quickly as possible.

Kind regards

Sven

Dear Sven,

Are you able to prepare a PDSA for a site we have in Liverpool please? The UXO Risk Map pertaining to the site is attached for reference. The study area is marked in red on the map below:

Regards,
Peter Dickinson
Senior Consultant
Remada Ltd

| 07885 300691 | 0845 505 5222 | www.remada.co.uk

Remada has the experience and capability to identify land liability at an early stage and to implement environmental, geotechnical and engineering solutions to increase land value for its clients.

Services include 3rd party reviews of investigation and remediation costs, due diligence auditing, abnormal cost estimates, acquisition assessments and buyer negotiations, project management, specification and tendering, and regulatory negotiations for planning permission. Technical disciplines include Phase 1 and Phase 2 site investigations, quantitative risk assessment, geotechnical investigation, mining investigation, foundation design, earthworks, remediation options appraisal and design, supervision and validation. Our experience of turnkey projects has also given us a capability to design and implement a range of in-situ and ex-situ soil and groundwater remediation technologies.

Remada Ltd. Forward House, 17 High Street, Henley-in-Arden, Warwickshire, B95 5AA. Registered in England & Wales No. 08302458.
