Do you have any further comments on the proposal?

Very nice proposal!
It would be interesting to see its
relationship to local attractions & assets
i.e. shopping, leisure, entertainment etc.
of what it contributes to the area as well.

Do you have any further comments on the proposal?

Excellent scheme on so many levels. It should
raise the bar for all apartment schemes in the
city.
How about a floor being adapted for the downsizing
retiree generation?

Do you have any further comments on the proposal?

what about extra traffic build up - as I reside here and it is difficult at times to cross the road, heavy traffic @ weekends due to Echo Area etc. Any bus facilities to stop car traffic build up, what about surrounding environment, planting more trees, flowers etc. It looks great but is it feasible, we have a lot of high rise apartment blocks and lots of these are empty.

Do you have any further comments on the proposal?

Welcome this new approach to city living. Liverpool desperately needs to develop a vibrant city centre residential community, which this project seems able to deliver.
I lead a 5st. group of some 35 people in South Liverpool, & would welcome the opportunity to bring them to view the development when it is nearer completion.

Do you have any further comments on the proposal?

The devil will be in the detail! eg. materials / colours / external cladding, etc. Await the detailed planning application with interest. Much of what has gone on around Princes Dock is somewhat disappointing - more akin to what you find in an "out-of-town" office park. Apart from the detailed design, the key question is how the proposal relates to the Design Framework / SPD for Liverpool Waters which the City Planning Officer is supposed to be preparing??
