

Curtain walling glass enclosure to corridor surround to lightwell

Thermally broken aluminium frames with 10-12.6mm K glass double glazed units with anti-sun coating.

SECTION AA

Architectural section drawing of a building facade, labeled "SECTION AA". The drawing shows a cross-section of the building, including the roof structure, interior spaces, and exterior walls. Key features include:

- Roof Structure:** A sloped roof with a series of structural ribs or trusses.
- Interior Spaces:** A large open area with a grid of structural elements (possibly a vaulted ceiling or a series of beams). A smaller, enclosed space is visible on the right side.
- Exterior Walls:** The building has a thick, textured exterior wall on the left side, featuring several circular openings or windows.
- Dimensions:** A vertical dimension of 20.08 is indicated on the left side. A horizontal dimension of 20.00 is indicated at the bottom right.
- Section Line:** The section is labeled "SECTION AA" at the top left.
- Orientation:** A north arrow is located at the top right, pointing towards the upper right corner.

new zinc standing seam metal roof
over bedrooms to hidden gutter
behind existing concrete ring beam
210mm thick Rockwool Duorock insulation with
4 layers Rockwool Acoustic Membrane for sound
absorption laid below insulation on metal liner sheet.
