

Existing upstand to be retained, protected and if required any damage made good
If site condition varies from that shown this must be checked and brought to Architects attention within 1 week of possession being granted.

Powder coated aluminium flashing with butyl watertight seal onto upstand and with drip to lower edge, 1:40 fall on horizontal and 100mm upstand to back face, ensuring 25mm clear gap behind horizontal battens maintained top to bottom and 10mm gap protected with insect mesh top and bottom to ensure free flow of air.
