Dear Mr McEvoy

**PLANNING APPLICATION FOR TEMPORARY WORKS TO WALTON BRECK ROAD AREA – LPA
REF 16F/1260
Revised Plans**

Further to the recent submission of this application, the Club have reviewed the arrangement of the proposed temporary accommodation containers and are proposing minor revisions to the scheme.

In summary, the number of containers along the north western side of the proposed Club Store construction site has been reduced from 7 no. to 6 no and the containers will be provided in a continuous run for ease of use by fans. As a result, the gates to the Club Store construction site within the hoarding line have shifted slightly to the south. There is also a minor revision to the extent of graphics panels to be applied to the hoardings on the south west corner as a result of the minor movement of the containers/ gates.

Accordingly, I provide revised plans as follows:

- Site plan – ref PL1312.2.GA.017 (issue 5)
- Temporary containers layout – ref PL1312.2.GA.019 (issue 8)
- Final Hardworks Surfacing– ref PL1312.2. GA.011 (issue 6)
- Elevation Details – ref PL1312.4.GA.022 (issue 3)
- Hoarding Line – ref PL1312.2.GA021 (issue 7)

I trust these revised plans can be substituted in the application for consideration of the proposals.

Yours sincerely

Sarah Jones
