Dear Marcus,

RE: Status of assessment_Corium Brick Cladding System_Contract ref S163910

We would like to inform you that the assessment of the Corium Brick Cladding System, assessed as a ventilated and drained external cladding system, is in the drafting stage of the remaining Sections. The BBA Certificate for the system is currently being updated according to the data in the latest test reports provided and the conclusions of the meeting held at the BBA on the 7 November. A copy of the draft Certificate will soon be sent to you and the relevant internal/external commentators for your comments/approval. Any comments received will be addressed accordingly and the final Certificate will then be passed to our Head of Approvals for final sign-off.

Should you need any further information in the meantime, please do not hesitate to contact me.

Kind Regards,

Fernando Ferrarin
